

# neat.bar

## Zoom Rooms the Neat way.

Neat Bar is a purpose-built device for Zoom and ships with our dedicated Neat Pad controller. There is no PC required, so say goodbye to Windows and iOS updates on Monday morning. Add an optional second Neat Pad to your purchase and configure it as a scheduler to take your conference room mojo up a notch.

## Simple set-up.

Everything you need is in the box, and we mean everything. The Neat Bar base package includes a Neat Pad controller and set-up is a snap with the guided installation that runs on the Neat Pad to make install, simply neat. Here's what customers are saying:

“

I aim for simplicity, resilience, and innovation, and with Neat Bar, we get all three.

“

Neat Bar has made a huge difference in my ability to teach and if it wasn't for Neat Bar, I don't know how I would carry on with teaching remotely from my classroom.

## Just works.

Neat Bar is a compact and capable meeting device designed and engineered specifically for Zoom. Working directly with Zoom, we designed a device for the meeting room that makes joining a Zoom meeting as easy as it is on your computer. Scheduled meetings can be joined directly and simply by users with a single-click on the Neat Pad.

## Managed and supported by Zoom.

Neat removes complexities and threats thanks to our secure, single-purpose hardware devices. That means less stressing about passwords and patches. Plus, Zoom is your single point of contact for support.

## Video veterans.

Neat was founded in 2019 and while the company is new, the names and faces behind the company might be familiar. Most of us have spent our careers in the video industry with companies like Cisco, Acano, Pexip, TANDBERG, and Codian. This is a team that is passionate about video and giving you the best possible meeting room experience.

## Safer meeting rooms.

Thanks to Neat Sense, Neat Bar enables companies to offer significant health benefits to their employees, which in today's new normal of having to take ever-increasing protective measures against COVID-19 can be a huge relief. Neat Sense helps you control and monitor air quality, humidity (healthy indoor humidity levels are between 30-50%). Flu viruses can spread quickly due to poor indoor humidity), CO2 and organic chemical levels in the room – scents, odors, etc. Also, whether or not there are people in a room and if so, how many. That way, you can be sure of maintaining safe social distancing at all times.

## Neat Bar

Camera & system LED  
 Accelerometer  
 Secure boot  
 Zoom Rooms software  
 Table stand, wall mount and screen mounting hardware  
 Sensors for temperature, humidity, CO2 and VOC\*
